Sudaan Geo-Analytics | Sample Deliverable

Project: Sample Site - Aggregate Operation
Deliverable: Stockpile & Earthworks Volumetrics
Method: Surface-to-surface (TIN)
Base surface: Surrounding-terrain interpolation
Number of stockpiles: 14

Summary:

Total stockpile volume: 38,420 m³
Cut volume: 12,650 m³
Fill volume: 9,310 m³
Net (cut - fill): 3,340 m³
Estimated uncertainty: +/- 2.1%

This is a representative sample for demonstration purposes only.
